

The CENAS sleep medicine centre in Geneva is looking for a :

Sleep specialist 50-100% - Réf. 2021-0

CENAS is a Geneva based private Medical Sleep Center recognized and accredited by the Swiss Society for Sleep Research, Sleep Medicine, and Chronobiology, SSSSC, performing an important volume of overnight sleep analysis and daytime tests (>600 p/year). CENAS is recognized for its excellence in medical sleep healthcare, based on a tight collaboration working with a multidisciplinary team, including several medical specialties, (neurology, pulmonology, internal medicine, and psychiatry), sleep technologists and other healthcare professionals.

CENAS is taking an exciting step forward and is looking for collaborators for its new state-of-the-art Sleep Center located in the "Tour Opale" tower, in Chêne-Bourg, Geneva.

YOUR MISSIONS

All evaluation phases of patients with sleep pathologies:

- Initial outpatient clinical evaluation/examination - Therapy and follow-up care.
- Laboratory sleep testing procedures - analysis and reports of polysomnographic examinations, diurnal vigilance tests, actigraphy and other diagnostic means related to sleep medicine.
- Participation in pluri-disciplinary symposiums.
- Collaboration with the CENAS medical team network.

YOUR PROFILE

- MD - various profiles of specialties accepted (recognition of foreign qualifications in Switzerland is required).
- Board Certification in Sleep medicine (SSSSC Sleep specialist certificate is required).
- Competency and experience in various aspects of sleep disorders (based on ICSD-3).
- Language requirement: French (spoken and written).
- Collaborative work approach with a sense of initiative and a desire to grow.
